

Result from some diversity studies

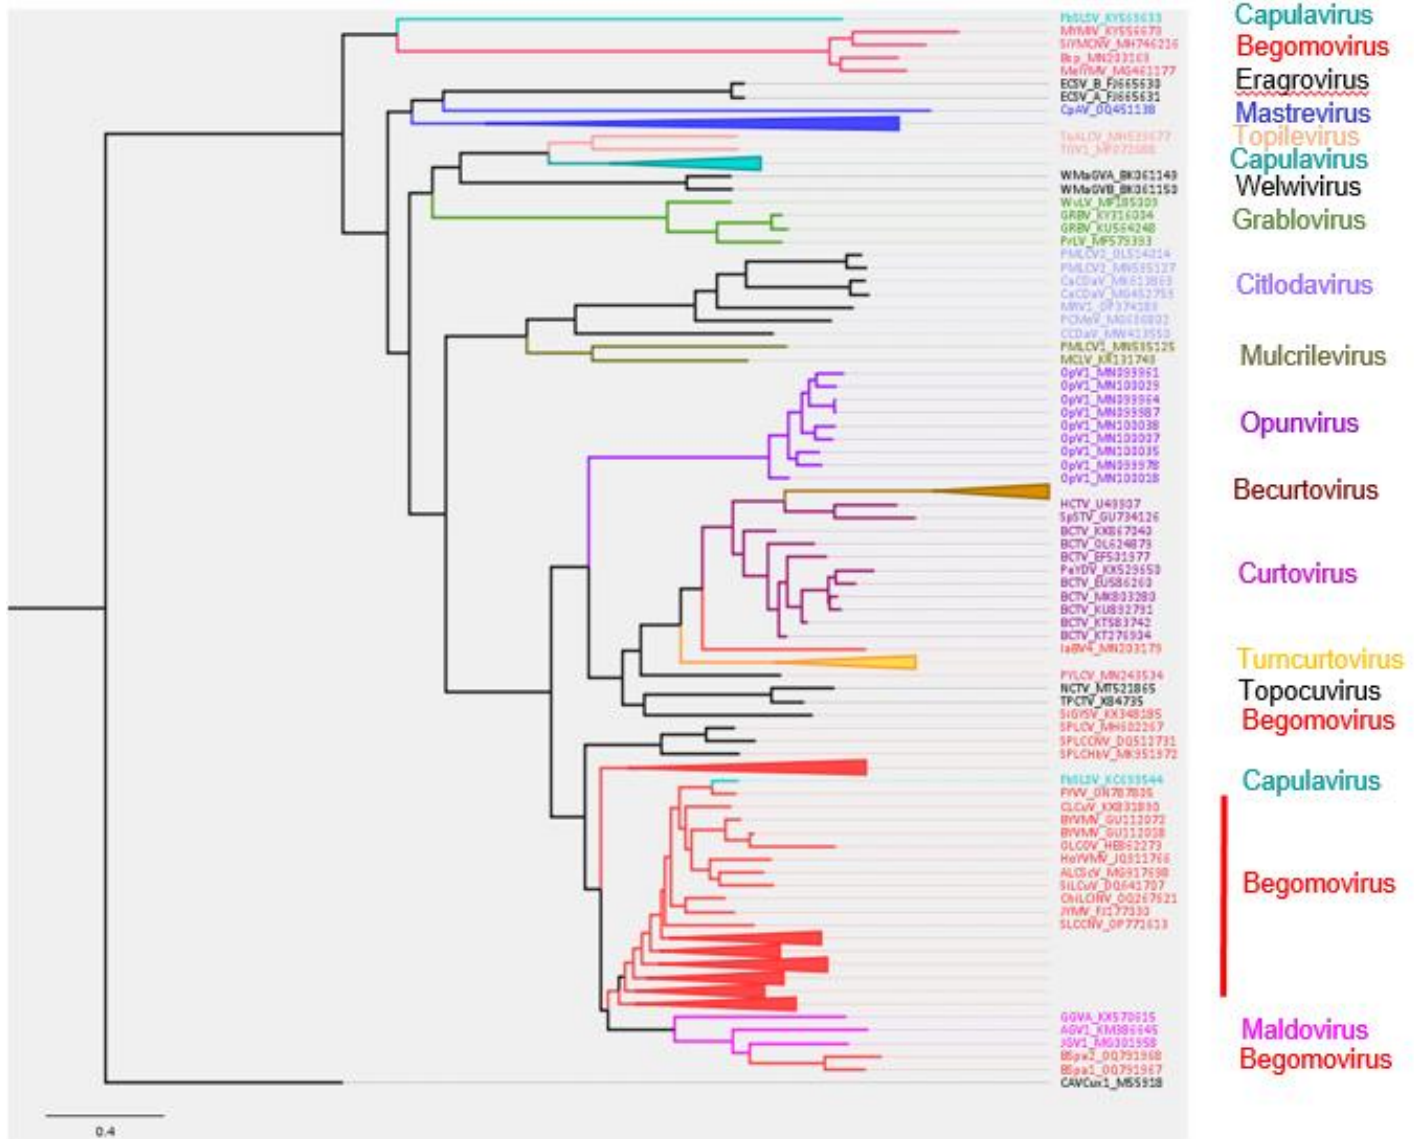

Figure 1 phylogenetic reconstruction using of DNA – A and monopartite genome

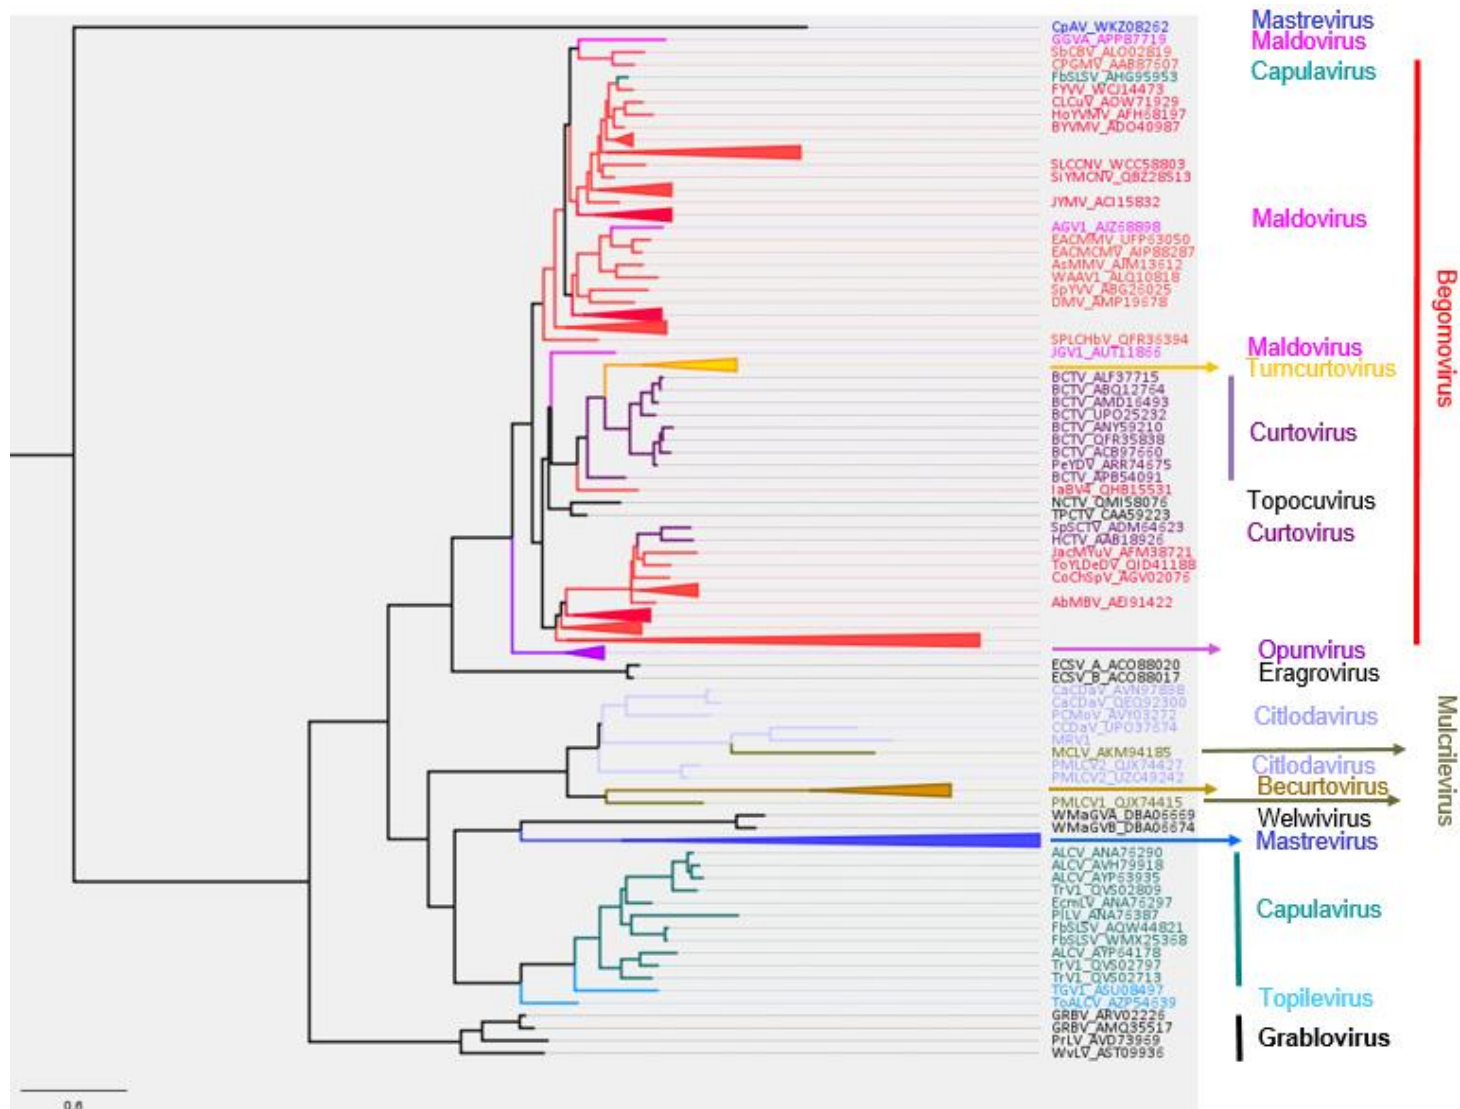

Figure 2 shows the phylogenetic reconstruction with the rep protein

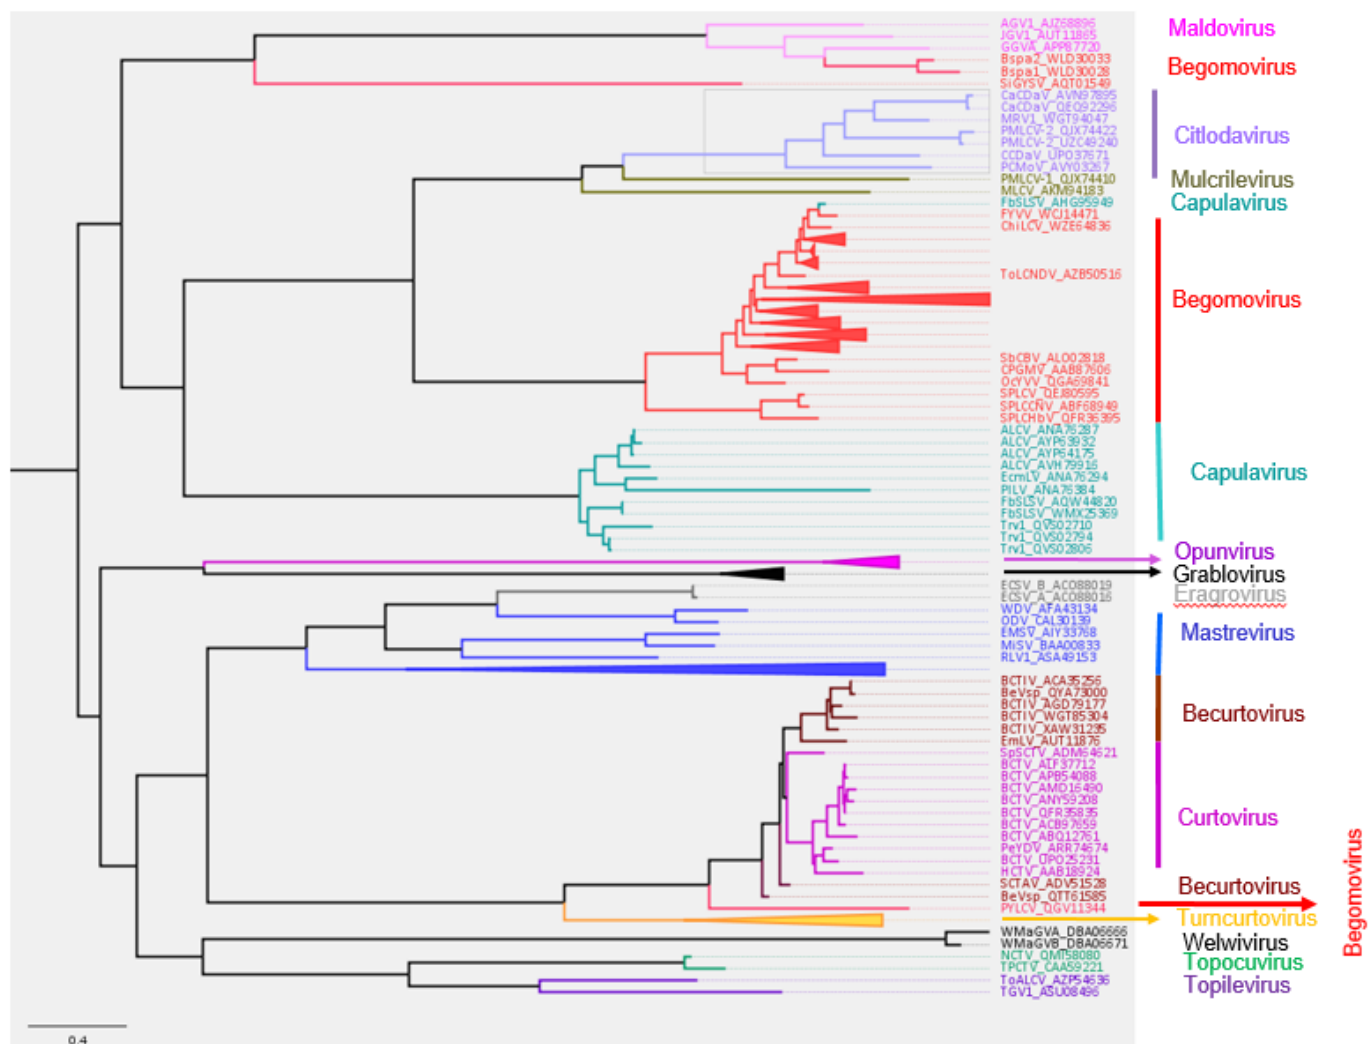

Figure 3 shows the phylogenetic reconstruction with the coat protein

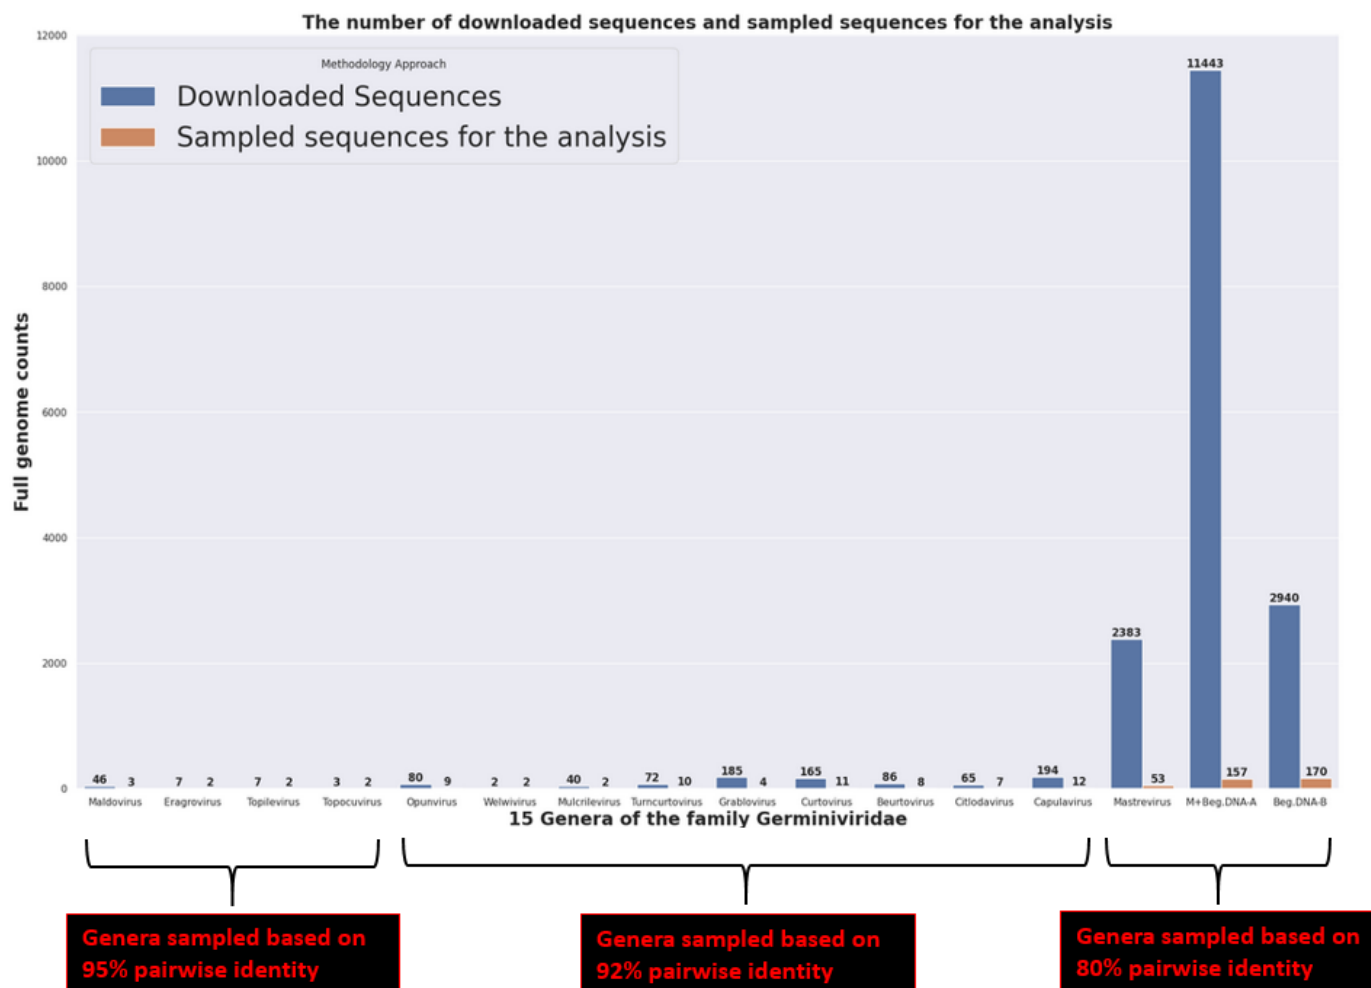

Figure 5 shows the sampled sequences

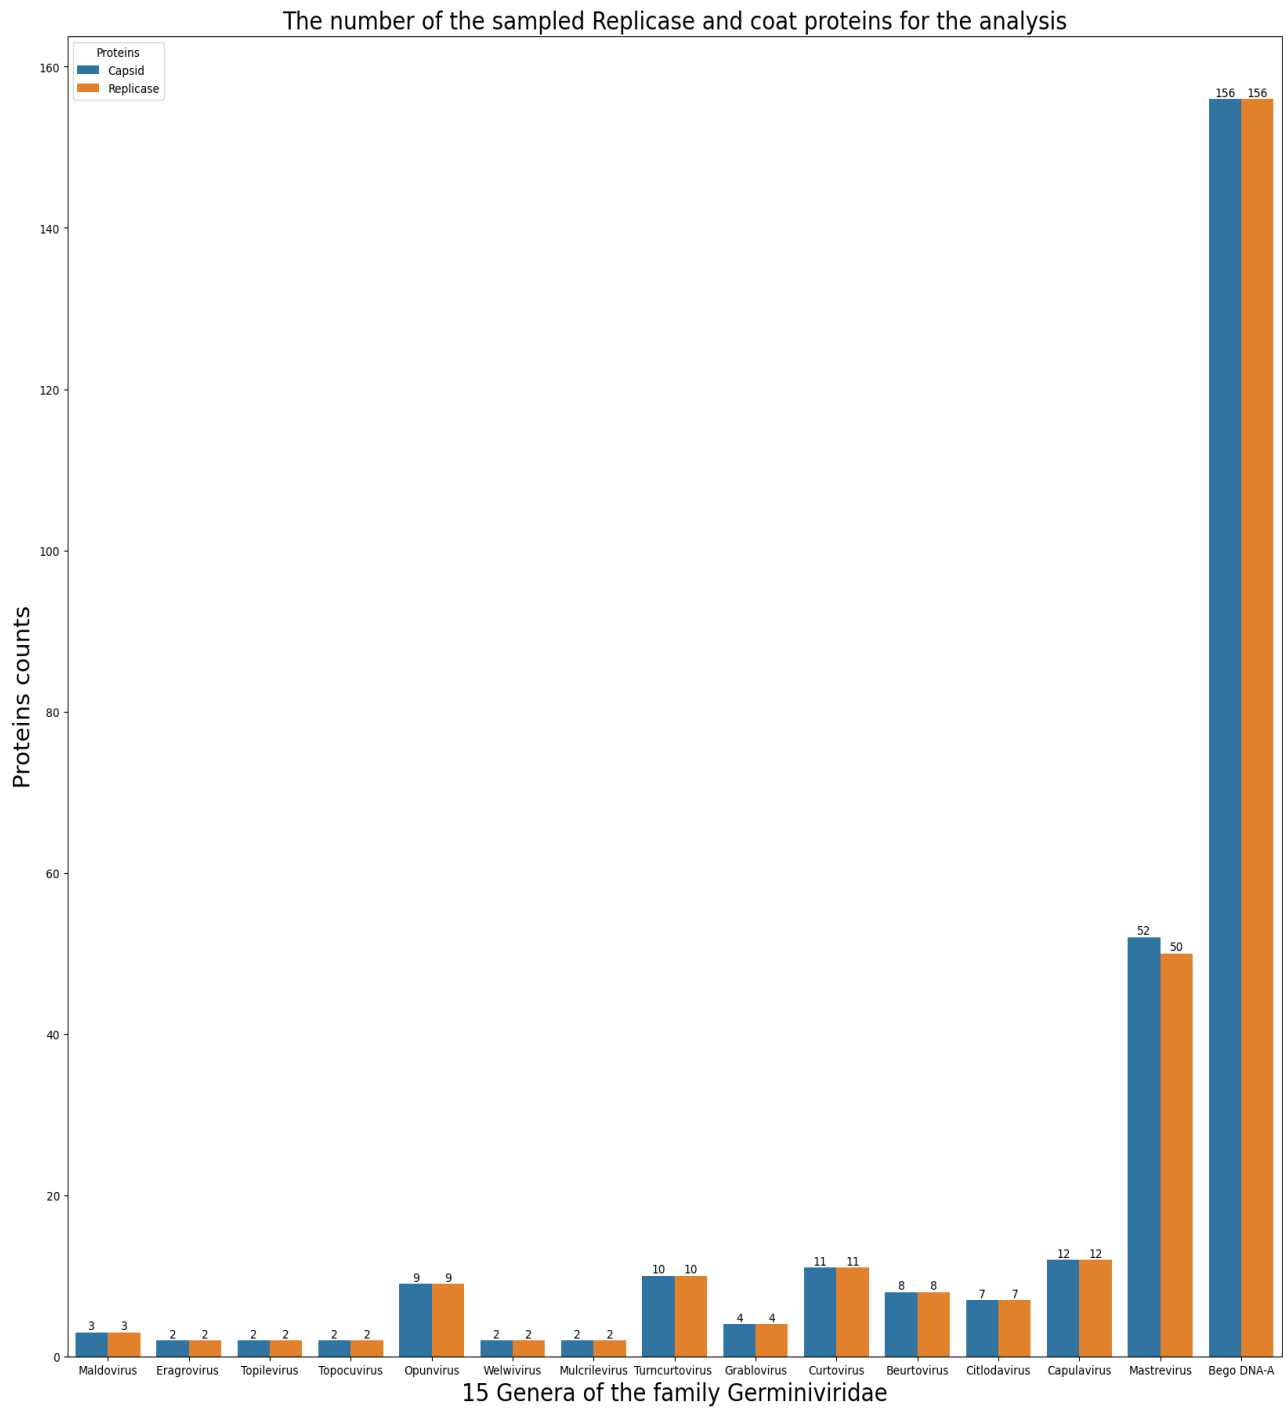

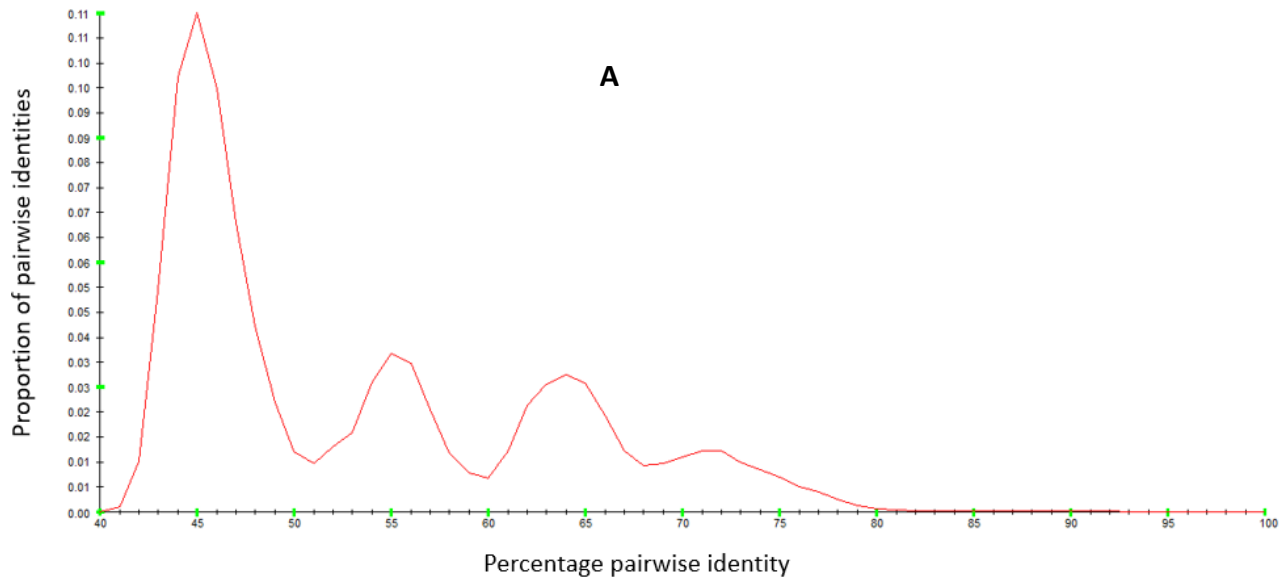

Figure 6 shows the sampled proteins

Figure 7 shows the global distribution

Pairwise identity similarity of the sampled dipartite DNA-B

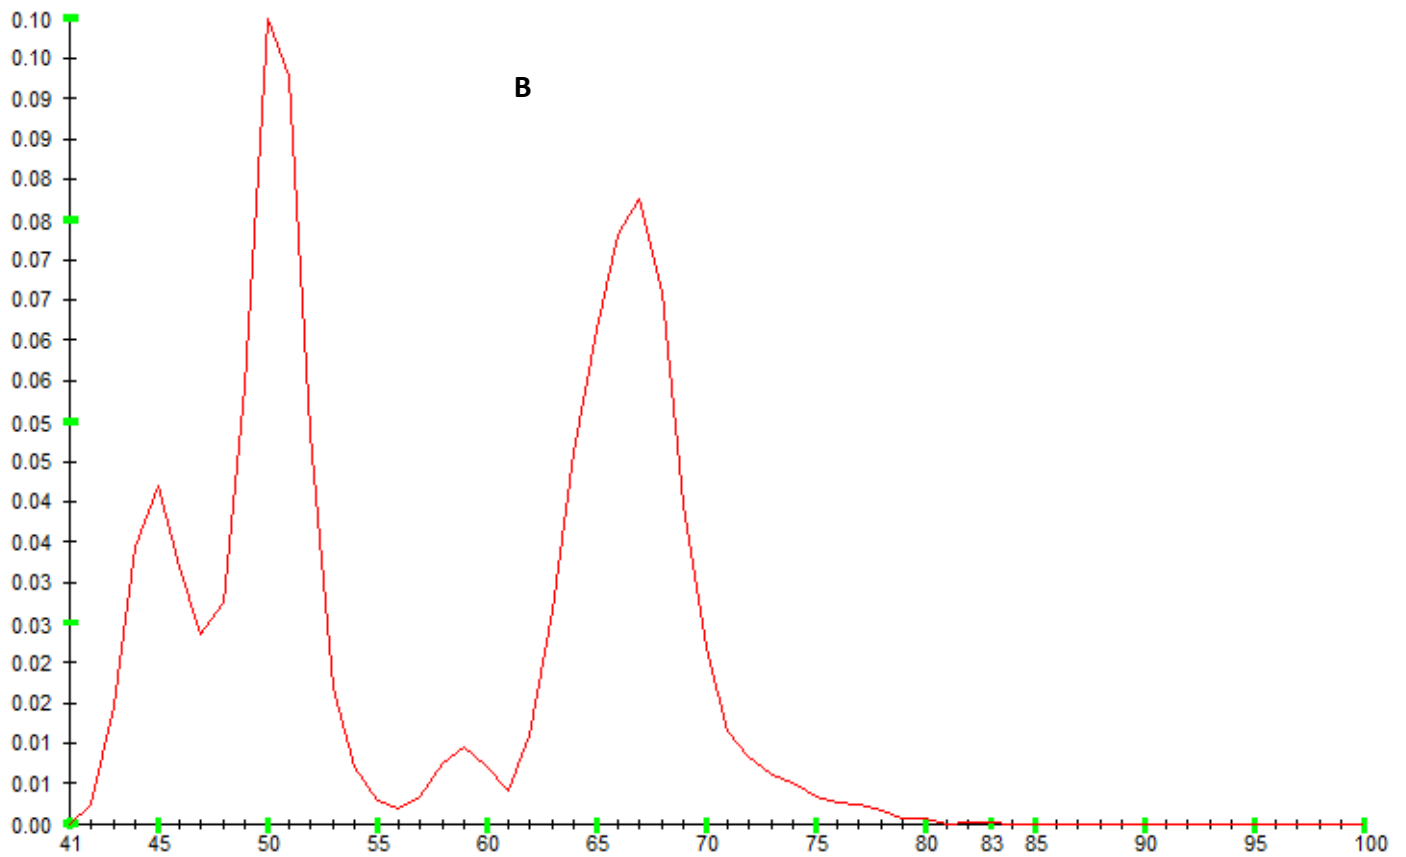

Figure 8 shows the pairwise identity similarity of (A) monopartite and DNA-A of dipartite genomes, (B) dipartite DNA-B.
